

9-14-10

Dear Susan,

We just wanted to tell you how wonderful our Golden Retrievers are!

When we came to your farm, we were only planning to find one puppy to keep our 14 year old Siberian Husky, Chelsea, company. We selected a cute male, whom we named Morris (Momo!). But as we walked around, his little sister began to follow us. She would not give up! So of course we had to take her home too—her name is Sophie. At first, the two of them were a bit overwhelming for Chelsea, but she eventually found them interesting and condescended to a bit of play. She lived for seven more months, and I think the two little squirts extended her life.

Momo & Sophie are now 4 ½ years old. We've had great dogs for the last 30+ years, but never before had Golden Retrievers. They are such an amazing breed!!! Momo is a great big boy (our "mini pony"), and he's the sweetest, calmest, most adorable guy. He looks at you with his big brown eyes full of love, and you melt. Sophie is the cutest busy-body you've ever seen—she always wants to know what's going on, wants to be included in the action, and is available for petting at any time. She loves her toys and will bring her collection to you. They are both anxious to please, very obedient, and so much fun!

They follow us around the house, and if Mike & I are in different rooms, they try to position themselves halfway between the two of us. They also give us hugs all the time. We'd be lost without them!

Thank you so much for helping us to find our very special pups!!!

Regards,

Patty & Mike
